

## General Map of Oil Production per Day in Each World Region

Rank the top three world regions for oil production (1,2,3) and the lowest one (B)

- |                   |            |                                  |
|-------------------|------------|----------------------------------|
| ___ North America | ___ Europe | ___ Southwest Asia (Middle East) |
| ___ South America | ___ Africa | ___ Russia and Central Asia      |
|                   |            | ___ Southeast Asia and Oceania   |

### Discussion question:

Comparing this map with your mental map of world population and income,

- put an E by the regions you think are likely to be exporters (sellers) of oil,
- put an I by the regions you think are likely to be importers (buyers) of oil,
- put a ? by the regions you are not sure are importers or exporters.
