

Abundant rainfall in summer

Winter rain and wildfires

Sample maps and map combinations

from the Big Idea package developed by the Michigan Geographic Alliance

Rainy days and malaria
Ecoregions (without key)

These maps and map combinations come from a file called BI5 Africa clickable miniAtlas

Grain crops and ancient capitals (for perspective, add rain, malaria, trade routes, ...)

Camels and religions in 1800s

Other map layers in this clickable file include cheetahs, chimpanzees, rivers, highlands, slave trade routes, colonial claims, languages, and a satellite image.

Clickable "mini-atlases" for 10 world regions can be downloaded from www.OurSpatialBrains.com
