Michigan Grade Level Content Expectations and World Regions

	World	NAmer	Austr	SAmer	Africa	Russia	SWAsia	China	Furone	SAsia
G1 The world in spatial terms	Wona		71000	Of arrier	7 (11100	Trabbia	011/10/0	Omina	Luiopo	0/10/4
G11 Spatial thinking			_			_		_		
6G111 Use maps, etc. to investigate places										
6G112 Add information to outline map	<u> </u>									
G12 Geographical inquiry										
6G121 Apply skills of geographic inquiry										_
6G122 Explain why maps may vary										
6G123 Use maps of region	<u> </u>									
6G124 Use images to answer questions	<u> </u>									
6G125 Use information from a GIS	<u> </u>									
6G126 Interpret map of population										
G13 Geographical understanding										
6G131 Fundamental themes of geography										
6G132 Generalize reasons for population pattern										
6G133 Connections between places										
G2 Places and regions										
G21 Physical characteristics of places										
6G211 Landforms, ecosystems, and climate										
6G212 Plate tectonics										
6G213 Major world climates										
G22 Human characteristics of places										
6G221 Human characteristics of region										
6G222 Changes in technology	L									
6G223 Culture influence perception of region	L									
6G224 Population pyramids			_							
G3 Physical systems										
G31 Physical processes										
6G311 Interpret climagraphs										
6G312 Factors that cause climates										
G32 Ecosystems 6G321 Locate and explain ecosystems										
6G322 Identify opportunities for humans	<u> </u>									
G4 Human systems										
G41 Cultural mosaic	_		-					_		
6G411 Define culture and trace spread										_
6G412 Roles and men and women										
6G413 Cultures in a region										
6G414 Cultural patterns influence daily life	<u> </u>									
G42 Technology networks										
6G421 Technologies to move people/goods/ideas										
G43 Patterns of human settlement										
6G431 People modified environment										
6G432 Patterns of settlement, city location										
6G433 Patterns and causes of migration										
G44 Forces of cooperation and conflict										
6G441 Resources, power, cultural differences										
6G442 Diff. perspectives on cooperation/conflict										
G5 Environment and society										
G51 Humans and environment										
6G511 Humans impact the environment										
6G512 Differing technologies impact environment										
6G513 Environment impacts have effects elsewhere										
G52 Physical and human systems										
6G521 How changes in environment affect humans	L									
6G522 Geography of natural hazards
